Evolution 7200kg

Equi-Trek Evolution

Built on a brand new 7,200kg Iveco chassis chosen for its unrivalled performance, economy and drivability, the Equi-Trek Evolution is stalled for up to 3 horses or 4 ponies (subject to size and weight).

Up to seven people can travel safely and secured in the Evolution as it features three fully approved seatbelts in the front and four in the back.

The fully equipped living area of the Evolution incorporates a large L-shaped seating area which converts into a comfortable double bed. The second double bed is situated above the cabin and can be raised and lowered only when required. This creates an exceptionally spacious walk-through cab/living area.

The Evolution is available in our four standard specifications; Classic, Excel, Elite and Transporter. Unique to this size of vehicle, the Evolution Elite even includes an extra-large slide-out incorporating both the kitchen and bathroom areas.
